

CONFIDENTIAL PROPOSAL

AI Deal Flow Infrastructure + Social Intelligence Layer

Purpose-built AI agents to find, qualify, and connect Alpha Connectors with the right capital partners — powered by signal-based targeting, Aimfox outreach, and a unified CRM.

THE PROBLEM

Family offices and deal-makers are flying blind when it comes to deal flow.

LinkedIn Is an Unfinished Product

Account restrictions, daily limits, and Sales Navigator's failure to surface intent signals make scale impossible. There's no way to reach the right contacts beyond your existing network.

Deals Move Too Slowly

Matchmaking requires 6–10 touchpoints with zero pre-alignment between parties. Founders give up equity because they can't find the right debt partners fast enough.

No Signal-Based Targeting

Current tools can't identify who is actively seeking capital right now. The result is wasted outreach on dormant or irrelevant contacts — volume without precision.

Data Without Action

Even when you find a promising contact, converting a profile into a qualified, pre-aligned lead is manual, slow, and expensive every single time.

THE SOLUTION

A full-stack AI agent team built around Alpha Connectors.

We don't sell software. We deploy a custom AI agent team that handles lead sourcing, qualification, enrichment, and multi-channel outreach — powered by Aimfox for LinkedIn automation and a unified CRM to close every deal.

AGENT 01

Signal Scout

Monitors LinkedIn, Reddit, and the open web for real-time buying signals — filtered to contacts active in the last 7 days who match your deal categories.

AGENT 02

Aimfox Outreach Engine

Qualified leads feed directly into Aimfox sequences — multi-touch LinkedIn outreach at scale, without triggering platform flags or account risk.

AGENT 03

Enrichment + Qualification

Contacts enriched with email and phone via Apollo. Filtered for fit, recency, and decision-maker status before a single message is sent.

AGENT 04

Pre-Meeting Briefer

AI preps both parties before every call — deal context, investment thesis, and a digital intelligence brief so both sides arrive pre-aligned.

AGENT 05

CRM Integrator

Every interaction, signal, and follow-up logged in one pipeline. Full deal status visibility from first touch to signed agreement.

AGENT 06

Lookalike Expansion

Builds audiences beyond your existing network — surfacing decision-makers your current outreach can't reach through standard LinkedIn search.

From signal to signed deal — without the manual grind.

01

Define Your ICP

We map Alpha Connectors' deal categories: tech, real estate, renewables, gov contracts, and startup equity — each with its own signal ruleset and detection logic.

02

Signal Detection

Agents scan LinkedIn, Reddit, and the open web for contacts actively talking about funding needs — filtered to the last 7 days only. No cold lists.

03

Enrich & Qualify

Contacts enriched with phone and email. Filtered for fit, recency, and decision-maker status. Only verified, active leads move to outreach.

04

Aimfox Outreach

Qualified leads drop into Aimfox sequences — sequenced LinkedIn outreach across connection, message, and follow-up. Safe, scalable, undetected.

05

Book & Brief

AI preps both parties before the meeting. You arrive with deal context. They arrive pre-sold on the fit. Deal timelines cut by weeks.

SIGNAL-BASED TARGETING

We don't find people. We find people who need you **right now.**

TRIGGER SIGNALS WE MONITOR

- Founder announces new funding round or raises on LinkedIn
- Executive mentions "raising capital" or "seeking debt" — last 7 days
- Real estate operator posts about project financing or construction debt
- Renewable energy company reaches commercial scale or announces PPA
- Government contractor wins new bid — signals immediate cash flow need
- Portfolio company hits milestone — triggers new deal opportunity
- Active commenter on family office or capital markets content

ALPHA CONNECTORS NICHES MAPPED

- **Tech Projects** — Equity or debt funding, identified by pitch activity and accelerator signals
- **Real Estate** — Debt deals backed by collateral, flagged by permitting and distress signals
- **Renewables / Data Centers** — Large infra deals, federal grants, and commercial scale announcements
- **Gov Contract Holders** — Seeking debt financing, flagged by new contract awards and cash flow language
- **Startup Founders** — Equity or mixed structures, identified by fundraise announcements and advisor changes
- **Capital Partners** — Family offices and debt partners identified by investment thesis signals and activity

This isn't a vendor relationship. It's a growth partnership.

Built Around Your Business

Every agent, sequence, and filter is designed specifically for Alpha Connectors' deal categories. Not a generic SaaS tool.

You Own the System

After 3 months of optimization, you can buy out the full infrastructure. We handle maintenance. You own the asset.

Aligned Incentives

We win when you close deals. Rev share means we're motivated to deliver leads that convert — not just volume.

Expand as You Grow

Start with LinkedIn via Aimfox. Layer in email, calls, Reddit, and operational automation as the partnership deepens.

WHAT MIKE VALIDATED

- ✓ LinkedIn outreach at scale without account risk
- ✓ Signal-based lead targeting — last 7 days only
- ✓ Pre-meeting AI intelligence briefings for both parties
- ✓ Matchmaking precision over volume
- ✓ Faster deal cultivation timelines
- ✓ Lookalike audiences beyond existing network
- ✓ Strategic partner, not a vendor

Three tiers. Let's pick yours and build.

RECOMMENDED — GROWTH

\$15K – \$25K

Install fee + 3–5% rev share

Rev share kicks in only when deal flow converts

2–3 niches · 100–250 qualified leads/mo

Multi-channel outreach · Weekly strategy calls

CRM integration · Pre-meeting AI briefings

WHAT ALPHA CONNECTORS GETS

- ✓ A custom AI agent team scanning LinkedIn, Reddit, and the open web for contacts actively seeking capital — last 7 days only
- ✓ Qualified leads fed directly into Aimfox sequences — no manual input, no cold lists, only signal-matched contacts
- ✓ A unified CRM that logs every interaction and follow-up — full pipeline visibility from first touch to closed deal
- ✓ AI-prepared briefings before every meeting so both parties arrive pre-aligned — deals close faster, fewer wasted calls
- ✓ After 3 months: option to buy out the full infrastructure and own it as an asset — we maintain, you own
