LinkedIn

Twitter / X

Web / Press releases

- **6-vertical** classifier per lead
- **Dollar amount** signal boost scoring
- **Decision-maker** weighting
- **Connection angle** generated per lead

PROCESS

How the agent works.

01

Configure

We map your ICP, pain signals, competitors, and platforms. Built for your business — no templates.

02

Detect

The agent scans Reddit, LinkedIn, X, Facebook, Hacker News, G2, and the open web — daily, automatically.

03

Score

Claude AI ranks every result — Hot, Warm, or Cold — by intent, role fit, and buying signals before it reaches you.

04

Surface

Leads land in Google Sheets with a Slack alert. Draft outreach included. You approve — the agent sends.
