The End of Software You Rent

SHOW OF HANDS

Who here has Googled
"will AI take my job"
in the last six months?

That is a tough title to carry into a room full of people who have jobs.

1

ORIGIN STORY

**I walked away from
the role of my life.**

THE BEGINNING

Corporate. Sales. GTM.

Director to CRO track. Salesforce ecosystem.

THE BREAKING POINT

Toxic culture.
No change.
Especially with AI.

...

I quit.

Six months into the role of my life.
No backup plan. No investors. No safety net.

2

THE SHIFT

**I did not follow passion.
I followed the data.**

THE GIANT IS LIMPING

17% to 12.2%

Median SaaS revenue growth collapsed in 24 months.

PER-SEAT IS DYING

21% to 15%

Companies stopped paying for chairs.

OUTCOMES ARE WINNING

27% to 41%

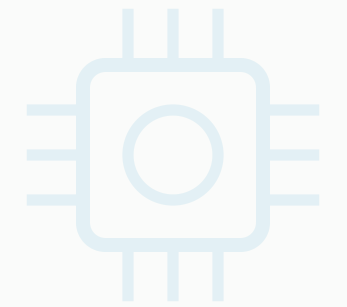

They started paying for results.

3

WHAT ARE AGENTS?

**Software that works
while you sleep.**

WHAT ARE AGENTS

Stop calling them chatbots.

A chatbot waits for a question.

An **agent** takes the action, checks the result, decides what to do next, and keeps going until the job is done.

SAAS

Software you log into.

AGENT

**Software that logs in for
you.**

THE QUESTION

I asked Sergey Brin, co-founder of Google, at a hackathon:

"What are your thoughts on the transition from Software as a Service to Agents as a Service?"

His answer: **Nobody knows what is happening in the future, but it is very exciting what is coming.**

A non-answer from someone whose words move markets.
100 people in that room heard it loud and clear.

THE INDUSTRY SIGNAL

**If you don't believe me,
follow the money.**

This is not an upgrade. This is the next platform.
And it has already started without you.

5

YOU WILL NOT LOSE YOUR JOB

**AI does not replace people.
It removes the ceiling.**

THE REFRAME

Everyone is asking the wrong question.
It is not *will AI take my job*.

830B

8.3 billion humans. Each with 100 agents working alongside them.

**The internet did not eliminate salespeople.
It eliminated the ones who kept working off a Rolodex.
This is that moment. Your ceiling disappears.**

You are not too late.

**But you are running
out of early.**
