

The Universal Interface for Artificial Intelligence.

Translate your ideas into precision-engineered AI instructions.
Get superior results from any AI model, every time.

promptanything.io

THE PROBLEM

AI's Biggest Bottleneck Isn't the Technology. **It's Us.**

The Promise

AI models are exponentially powerful, but the vast majority of people cannot communicate their goals effectively to them.

The Language Barrier

This leads to frustration, wasted time, and mediocre results. An estimated **95% of AI users** are only scratching the surface.

The Real Cost

This gap costs businesses billions in lost productivity and is the primary reason enterprise AI adoption is stalling.

It's not the AI's fault. It's our inability to communicate with it.

WHY THIS MATTERS

The Hidden Cost Behind Prompting

40%

Operational Failure

Up to 40% failure rate in production with competing point solutions, wasting compute and time.

80%

Wasted Spend

Inefficient prompts cause token waste, driving up to 80% of total cost of ownership during customization.

12x

Labor Inefficiency

Poor prompts create up to a 12x loss factor in initial iteration time for teams.

\$270K

High Frictional Cost

Relies on expensive, scarce Prompt Engineers (salaries up to \$270K+) doing manual, slow trial-and-error iteration.

Static prompts incur a 156% opportunity cost compared to continuously optimized ones.

THE SOLUTION

The AI Conversation Partner That **Understands Your Intent.**

We are not another prompt-fixing tool. We are the bridge between your idea and the AI's perfect execution.

promptanything.io is an intelligent, AI-agnostic platform that acts as your personal AI strategist, translating your natural language goals into precision-engineered instructions.

AI-Agnostic

Dynamic Prompts

Auto Model Routing

HOW IT WORKS

Three Steps to Superior AI Output

1

State Your Goal

Type a simple, natural language request. No special syntax or "prompt engineering" jargon needed.

"I need a social media campaign to promote our new eco-friendly water bottle."

2

Guided Refinement

Our AI engine analyzes your request and asks smart clarifying questions derived from your profile and task.

"Who is the target audience?" "What platforms?" "What tone should we use?"

3

Execute & Deliver

We construct a master prompt, route it to the top-performing AI model for your task, and deliver superior output in seconds.

Auto-routed to the best model. Ready-to-use results, instantly.

UNDER THE HOOD

The Technology That Powers It

Dynamic Prompt Engine

A proprietary system that algorithmically constructs hyper-contextualized prompts. It leverages a vast library of 'prompt components' combined with cognitive frameworks, personalized using your profile data and live answers.

Automated Model Selection

We continuously benchmark hundreds of AI models across thousands of task types, creating a proprietary real-time leaderboard. Your task is automatically routed to the current best-in-class model.

AI-Agnostic Architecture

Not tied to a single model. We integrate with and route tasks to any AI model, current or future. As new, better models emerge, you instantly benefit.

Continuous Benchmarking

A proprietary, real-time leaderboard of AI model performance across thousands of specific task types. We dynamically route each prompt to the objectively best-performing model.

MARKET TIMING

Why Now?

Cambrian Explosion of AI

The AI market is projected to reach **\$32 Trillion by 2034**, touching nearly every aspect of the global economy.

Fragmentation

Hundreds of specialized AI models have emerged, each excelling at different tasks. Users don't know which to choose.

Model Fatigue

Enterprises are struggling to standardize AI usage. The market needs a **universal translator** for all AIs.

The market needs a single interface to harness the power of all AIs. That is promptanything.io.

PRICING

Plans Built for Every Team

Individual

\$15/mo

Students, freelancers, creators, and AI enthusiasts

✓ Core Dynamic Prompt Generator

✓ 50 master prompts / month

✓ Standard AI model access

MOST POPULAR

Pro / Teams

\$35/seat/mo

Professionals, startups, and growing teams

✓ Unlimited prompts

✓ Collaboration tools & shared libraries

✓ Priority Beta model access

✓ Prompt/Agent Marketplace

Enterprise

\$76/seat/mo

Large organizations scaling AI securely

✓ Advanced security & compliance

✓ Custom brand voice training

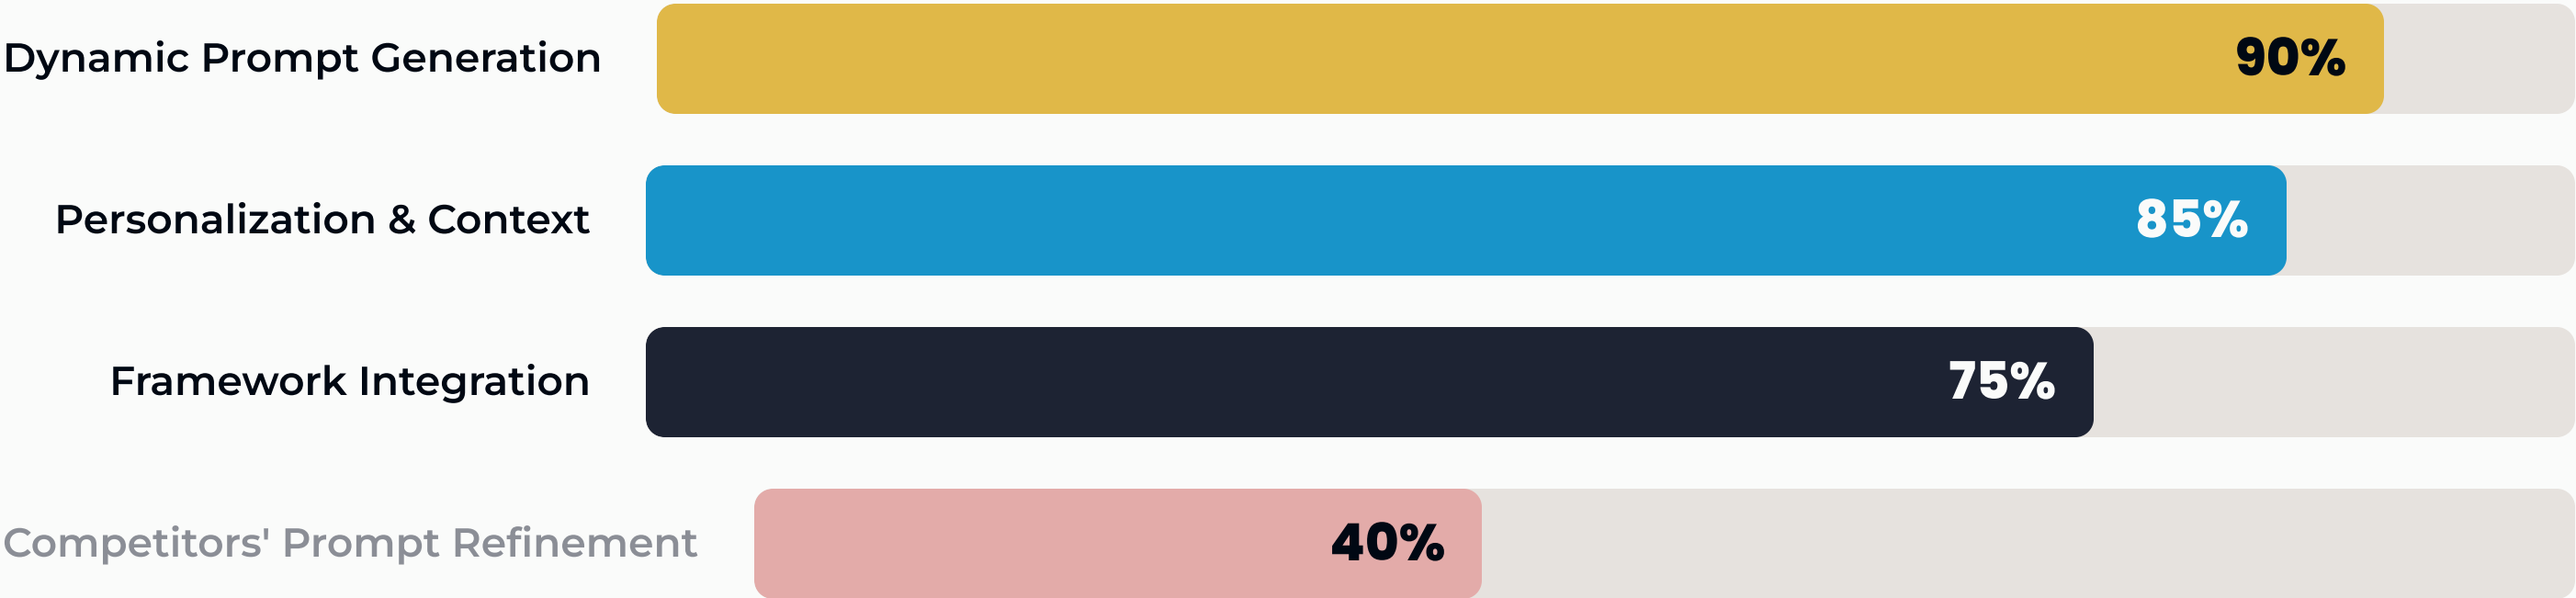

✓ Detailed analytics & ROI tracking

✓ Dedicated account management

HOW WE COMPARE

Competitive Landscape

Comparing the ability to create dynamic, context-aware prompts

MARKET SIZE

Market Opportunity

TAM (Total Addressable Market)

\$32T

The Global AI Market by 2034. We grow as the entire ecosystem expands.

SAM (Serviceable Addressable)

1B+

Knowledge workers and creators worldwide who directly benefit from enhanced AI productivity tools.

SOM (Serviceable Obtainable)

10M

Tech-forward professionals, marketers, developers, and creators in North America and Europe.

3-Year Target

\$30M ARR

100,000 paying users at a blended \$25/mo ARPU. 1% of our initial SOM.

WHAT'S AHEAD

Product Roadmap

- **COMPLETED**
Public MVP Launch
Core platform live with Dynamic Prompt Engine
 - **IN PROGRESS**
Multi-modal Integrations
Image, Video, and Presentation Slide generation
 - **UPCOMING**
Public Developer API
Open ecosystem for third-party integrations
- **COMPLETED**
Prompt/Agent Marketplace
Community marketplace with first 1,000 paying users
 - **IN PROGRESS**
Teams/Enterprise Platform
Collaboration, Education Hub, and enterprise security
 - **UPCOMING**
Autonomous Agent Capabilities
AI agents that orchestrate multi-model workflows

THE VISION

Where We Are Headed.

Our platform will enable **autonomous AI agents** to orchestrate the power of multiple AI models, **dynamically chaining tasks and tools** to solve complex problems beyond human capability.

This is the first step towards accessible human-led superintelligence, where AI systems create their own workflows and applications.

Stop Wrestling with AI. Start Commanding It.

Visit our booth for a live demo. See how promptanything.io turns your ideas into precision AI output in seconds.
